Dear Marcello,

May i thank you most sincerely for all your help of late with sorting out my insurances and pensions as a result of an altered economic situation, never mind the 'advancing age' effect!

Your knowledge and care are without parallel, and despite the fact that there seemed to be little or no benefit to you , you have once again excelled yourself in terms of sorting out these aspects of my financial life so that i benefit far more than i thought might be possible. It makes for financial peace of mind, and for that i thank you most sincerely. This is indeed something rare these days!!

I have no hesitation whatsoever in recommending you for pension or insurance analysis and ensuring that your clients gain the best possible benefits from their assurance, insurance and pension arrangements.

Warm regards

D wynne
